### [Birds On Aegean Bronze Age](#)

#### **Birds On Aegean Bronze Age**

The thesis discusses bird depictions in the Aegean Bronze Age. The iconographical study is based on a catalogue of almost 2000 objects showing bird images from Crete, the Cyclades, the Greek Mainland and the Dodecanese dating to EB I - LB IIIC. Three research aims are addressed. The first aim is the reliable and accurate identification of the depicted bird species by finding a middle ground between the two approaches that have prevailed in past scholarship, which either consisted of overam...

Each research aim has yielded numerous results, which deepen our understanding of biological knowledge and cultural diversity in the Aegean Bronze Age. First, the vast majority of bird depictions can be identified as belonging to one of the following folk-taxonomical groups: columbids (doves), birds of prey/corvids, waterbirds, wading birds, owls, hoopoes, galliformes, swallows and seabirds. Second, the existence of a multitude of particular functions and roles of birds is revealed. These ...

Aegean civilization is a general term for the Bronze Age civilizations of Greece around the Aegean Sea. There are three distinct but communicating and interacting geographic regions covered by this term: Crete, the Cyclades and the Greek mainland. Crete is associated with the Minoan civilization from the Early Bronze Age. The Cyclades converge with the mainland during the Early Helladic ...

The Bronze Age The Early Bronze Age (c. 3000-2200)The transition from Neolithic to Bronze Age in the Aegean was marked by changes in pottery and other aspects of material culture. These changes may reflect the arrival in Crete and the Cyclades of new people from lands farther east bringing knowledge of metalworking with them. In Crete and the islands, the changes that inaugurated the Bronze ...

Aegean Bronze Age Carl Knappett1, Tim Evans 2 & Ray Rivers The authors raise spatial analysis to a new level of sophistication - and insight - in proposing a mathematical model of 'imperfect optimisation' to describe maritime networks. This model encodes, metaphorically, the notion of gravitational attraction between objects in space. The space studied here is the southern Aegean in the ...

The poems of Homer, which reflect an epic tradition that absorbed many changes occurring in warfare and society between the 15th and the 8th century bc, describe warriors employing bronze weapons and objects such as helmets plated with tusks of wild boar that went out of use before the end of the Aegean Bronze Age. Massive Bronze Age defense walls survived at Mycenae and elsewhere on the mainland; they were called Cyclopean because, according to Greek tradition, the Cyclopes had built them ...

In the Late Bronze Age, the animal economy is characterized by a further increase in the diversification and a concentration of pastoral activities on small cattle. Finally, the adaptation to new demands have also led to the development of technical innovations such as the plow and the cart, coinciding with the appearance of domestic horses in the Aegean world. MONTPELLIER-BU Lettres (341722103 ...
