and the first pursuit monoplane used by the United States Army Air Corps. Designed and built by Boeing, the prototype first flew in 1932, and the type was still in use with the U.S. Army Air Corps as late as 1941 in the Philippines.

Boeing P-26 Peashooter | Military Wiki | Fandom

The all-metal, single-wing P-26, popularly known as the “Peashooter,” was an entirely new design for Boeing, and its structure drew heavily on the Monomail. The Peashooter’s wings were braced with wire, rather than with the rigid struts used on other airplanes, so the airplane was lighter and had less drag.

Boeing: Historical Snapshot: P-26 “Peashooter” Fighter

Their answer was the Boeing P-26 Pursuit Fighter. Design work on the P-26 was undertaken during 1931 and production began the following January. Three experimental models designated the XP-936 (Model 248) were built at company expense. The first flight was on March 20, 1932.1
