Semantics - Semantics - Historical and contemporary theories of meaning: The 17th-century British empiricist John Locke held that linguistic meaning is mental: words are used to encode and convey thoughts, or ideas. Successful communication requires that the hearer correctly decode the speaker's words into their associated ideas. So construed, the meaning of an expression, according to Locke, is the idea associated with it in the mind of anyone who knows and understands that expression ...

Historical semantics investigates the conditions, means and functions of the creation of meaning in past societies. It examines the pre-requisites of the networks of meaning with which cultures expressed their knowledge, emotions and beliefs. Historical semantics specifically considers the diversity of linguistic, textual, pictorial, tonal, ritual and habitual methods of expression. Its ...

Historical Semantics | veryserioso

Generally speaking, Semantics is the study of language and its meaning. As a word, Semantics was first used by Michel Bréal, a French philologist in 1883, and can be used to describe how words can have different meanings for different people, due to their experiential and emotional backgrounds. A language can be a natural language, such as French, Dutch, or Hindi, or it can be an artificial language, such as a programming language for computers. Theoretical computer scientists study and ...

Semantic Change (Principles of Historical Linguistics)

Semantic change (also semantic shift, semantic progression, semantic development, or semantic drift) is a form of language change regarding the evolution of word usage—usually to the point that the modern meaning is radically different from the original usage. In diachronic (or historical) linguistics, semantic change is a change in one of the meanings of a word.
