Life On The Screen Identity In The Age Of The Internet

Life On The Screen Identity

Life On The Screen Identity
Life on the Screen traces a set of boundary negotiations, telling the story of the changing impact of the computer on our psychological lives and our evolving ideas about minds, bodies, and machines. What is emerging, Turkle says, is a new sense of identity- as decentered and multiple. She describes trends in computer design, in artificial intelligence, and in people's experiences of virtual environments that confirm a dramatic shift in our notions of self, other, machine, and world. The ...

Life on the Screen. In Life on the Screen, Turkle presents a study of how people's use of the computer has evolved over time, and the profound effect that this machine has on its users. The computer, which connects millions of people across the world together, is changing the way we think and see ourselves. Although it was originally intended to serve as a tool to help us to write and communicate with others, it has more recently transformed into a means of providing us with ...

professor Sherry Turkle, in her book Life on the Screen: Identity in the Age of the Internet. Turkle studied the way people interact on so-called MUDs or role-playing games on the Internet, in which they play fictional characters in equally fictitious "worlds," created with words. In a typical MUD, text on the screen is used to
