Nardini 1560e Manual - mail.trempealeau.net It would appear the spec of 1 21/32" would still be incorrect. 1 21/32" = 1.656" but the spindle is 1.81" (the Nardini manual actually says 1.13/16"-46mm). I am not quoting a spec from somewhere off the internet, I have an original Nardini manual sitting on my desk. Nardini Mascote MS 1440 S/E Geared Head Precision Lathe Page 2/4. I am in need of basic operating instructions for a nardini 1440e lathe. I'd be very grateful if someone had an idea where to obtain them fairly quickly. I've read here that the manual is pretty poor, and the only vendor for it wants 70 bucks. I'll eventually bite the bullet and buy one on eBay I suppose, but I was wondering if anyone has a scan of the basic controls, apron, and oiling points ...

According to that manual it should have, and left enough to change the apron oil too. More is coming tomorrow to finish the gearbox and change the apron oil. I have a copy of the manual someone posted the link for. Some of the things in it don't match the 1440E. So far, these include the headstock oil filter, the oil capacity, and the drain ...
