Wisdom is the principal thing; therefore get wisdom; and with all thy getting, get understanding. Proverbs 4:7 In the early chapters of the book of Proverbs there is a strong emphasis on three words: knowledge, understanding, and wisdom. Perhaps we can apply these words to our philosophy behind the technology of Predictive Process Control.

Predictive Process Control of Crowded Particulate ...

Predictive Process Control (PPC) is a new approach to identifying variations in the properties of raw materials used in ceramic manufacturing and controlling the response of a ceramic composition before it is released to production. Compared to the old method of constant amounts of varying raw materials, this new method provides constant percentages of key properties of those raw materials. It has been tested to good effect with very substantial improvement in quality and percent yield, and ...
