

You may create your baby Reebop only after completing the chart.  
Complete this chart for your Reebop:

Trait	Genotype	Phenotype	Homozygous or heterozygous
sex	Xy	male	heterozygous
antenna	AB	2 antennae's	heterozygous
humps	Mm	2 humps	heterozygous
nose	QR	orange nose	heterozygous
tail	Tt	curly tail	heterozygous
eyes	Ee	2 eyes	heterozygous
legs	Ll	blue legs	heterozygous
body sections	Dd	3 body sections	heterozygous
reebopox/normal	normal	no red dots	heterozygous

9. List all of the traits your Reebop has which are dominant. If there are none, say so.  
Antennae's, humps, nose, tail, eyes, legs, body sections

10. List all of the traits your Reebop has which are recessive. If there are none, say so.  
Sex/gender

11. List all of the Reebop traits which are determined by incomplete dominance.  
antennae's + nose

12. Choose any one trait of your Reebop. You chose nose (QR)

Now, imagine you were to mate your Reebop with another having exactly the same alleles for that trait. Construct a Punnett Square to show this.

	Q	R
Q	QQ	QR
R	QR	RR

What percentage(s) of the offspring would be likely to have each genotype?  
(example Zz=50%) 25%:RR 25%:QQ QR-50%

What percentage(s) of the offspring would be likely to have each phenotype?  
Sex: 50%  
nose + antenna: 25%  
rest of phenotypes: 50%

## Reebop Lab Answers

### Reebop Lab Answers

Reebop Lab 1 of 6 Reebop Lab Lab Directions This activity was modified from the original created by the Center for Biology Education/University of Wisconsin. Perform the lab at home. Submit your lab answers according to the directions and grading rubric below. Overview: Reebops (*Marshmella magicus*) are an imaginary species that reproduce at a rapid rate. In this activity, you will assume the ...

### M8 Reebop Lab - Easy Peasy All-in-One High School

Explain that the students have been given instructions for breeding a male and a female Reebop in order to make a baby Reebop, and find out what it might be like. Provide students working in pairs with the student procedure sheet, envelopes of chromosomes, a decoder key and the materials to build their baby Reebops. Apparatus and Chemicals. For each group of students: Envelope of Mum Reebop ...

### Making Reebops: a model for meiosis
