Ridgewood Analogies

[Ridgewood Analogies](#)

Ridgewood Analogies

Teach your child how to solve five kinds of analogy problems with these Ridgewood Analogies workbooks. Each kind of analogy is studied at four skill levels, from finding an analogy that corresponds to a given analogy, to creating two analogies that correspond to one another in a given relationship. Subject matter used for the analogies is drawn from across the curriculum rather than only vocabulary as is true of some analogy resources. There are five books in the series, suggested for use ...

Ridgewood Analogies Solving analogies helps children learn to process information, make important connections, identify and construct relationships and improve comprehension and long-term memory. This series covers the five basic types of analogies: descriptive, comparative, categorical, serial and causal.

Ridgewood Analogies | Rainbow Resource

This series of books was developed by the teachers in the Ridgewood, New Jersey Public School, and has been in use for the past ten years. Book 1 corresponds with grade 4, and introduces what analogies are, how they're read, and why they're useful. Basic word functions and names are covered before moving onto the various types of analogies. Descriptive analogies, comparative analogies, categorical analogies, serial and causal analogies are all covered. Students will complete analogies ...

Ridgewood Analogies, Book 1 (Homeschool Edition ...

This series of books is based on curriculum developed by teachers in the Ridgewood, New Jersey, Public Schools. Ridgewood students begin in kindergarten to use analogies in language arts, social studies, science, and math as a way of identifying relationships and making connections. Once students learn how to solve analogies-and to create their own-they can use these abilities in any subject, as ways of learning and remembering information.
