

Name: _____

Student Exploration: Star Spectra

Vocabulary: absorption spectrum, binary star, blueshift, Cepheid variable, emission spectrum, giant star, nebula, redshift, spectrum, star

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

1. What happens when light goes through a prism? _____
This band of colors is called a **spectrum**.
2. A rainbow is an example of a spectrum. What is the sequence of colors in a rainbow?

Gizmo Warm-up

The interior of a **star** produces a continuous spectrum of light, like a rainbow. Cooler gases in the outer layers of the star absorb certain wavelengths of light, causing dark lines to appear in the spectrum. The resulting **absorption spectrum** can tell astronomers a great deal about the star.

1. On the Star Spectra Gizmo™, turn on **Show labels**. Select star **1** to see its absorption spectrum. How many lines do you see in the spectrum?

2. Drag the **Hydrogen** spectrum next to the **Star spectrum** so that the edges line up. Do some of the lines on the two spectra match up? _____
3. Drag the **Helium** spectrum next to the **Star spectrum**. Do some lines match? _____
4. Try out the other available spectra. Do any others have lines that match? _____
5. Which elements have contributed to the spectrum of star **1**? _____

Note: The elements in a star's spectrum do not necessarily reflect what the star is made of. The absorption spectrum is mostly determined by the surface temperature of the star.

Activity A: Classifying stars	Get the Gizmo ready: Check that Show labels is on and Neutral spectra is selected.
---	--

Question: How are stars classified?

Introduction: Late in the 19th century, Harvard astronomer Edward Pickering wanted to sort and catalog the thousands of star spectra that had been collected by the Harvard Observatory. He hired several women to do the work, paying them 25 cents a day. The most prominent of these women was Annie Jump Cannon, who devised a classification system still used today.

Harvard Classification Scheme			
Class	Color	Prominent spectral lines	Surface Temp. (K)
O	Blue	ionized helium, hydrogen	> 25,000
B	Blue-white	Neutral helium, hydrogen	11,000 – 25,000
A	White	Hydrogen, ionized sodium, ionized calcium	7,500 – 11,000
F	White	Hydrogen, ionized sodium and calcium; neutral sodium and calcium	6,000 – 7,500
G	Yellow	Neutral sodium and calcium, ionized calcium, ionized iron, ionized magnesium	5,000 – 6,000
K	Orange	Neutral calcium, neutral iron, neutral magnesium	3,500 – 5,000
M	Red	Neutral iron, neutral magnesium, and neutral titanium oxide (not shown)	< 3,500

The original Mortal Kombat Warehouse displays unique content extracted directly from the Mortal Kombat games: Sprites, Arenas, Animations, Backgrounds, Props, Bios, Endings, Screenshots and Pictures

This is also one of the factors in getting the software documents from this [Student Exploration Star Spectra Gizmo Answer Key](#) online. You might not need more times to spend to go to the ebook beginning as competently as research for them. In some cases you withdraw not uncover the statement Student Exploration Star Spectra Gizmo Answer Key you are looking for. It will be unquestionably wasting time.

However below, like you visit this web page, it will be suitably definitely simple to acquire as skillfully by downloading lead Student Exploration Star Spectra Gizmo Answer Key

He will not to resign oneself to many mature as we explain before. You can finish this even if behave something else at house and even at your workplace. therefore easily! So, are you question? Just exercise what we pay under like skillfully like review **Student Exploration Star Spectra Gizmo Answer Key** what you past read!
