Telepresence & Bio Art is a testament to Kac's uniqueness as an artist-theorist. In the course of developing his work with telepresence, biotelematics, biorobotics, and transgenic art, Kac has always sought to extend the work through reflection and writing. He has also investigated lesser-known aspects of media art and considered the contributions made by other contemporary artists. The book weaves Kac's own trajectory with that of other artists through discussions of some of the most ...

Telepresence and Bio Art: Networking Humans, Rabbits, and Robots is an invaluable anthology of Kac's writings on both the history of computer-aided art and telecommunications, but it also includes his theoretical and ethical considerations on his own work. Perhaps what is most welcome in this collection are the early chapters that outline the development of media art. Originally published in the 1990s, these writings indicate that Kac is not only an important contemporary artist but a ...
