A clear, concise, and contemporary presentation of immunological concepts, The Immune System, Peter Parham, 9780815344667

The Immune System | Peter Parham | W. W. Norton & Company

This text emphasizes the human immune system and presents concepts with a balanced level of detail to describe how the immune system works. Written for undergraduate, medical, veterinary, dental, and pharmacy students, it makes generous use of medical examples to illustrate points. This classroom-proven textbook offers clear writing, full-color illustrations, and section and chapter summaries that make the content accessible and easily understandable to students.

The Immune System - Peter Parham - Google Books

Peter Parham is a professor in the departments of structural biology as well as microbiology and immunology at Stanford University. Dr. Parham's research has focused on proteins of the human immune system that vary greatly between individuals and populations. These differences, the consequence of natural selection, not only modulate the immune response to infection and cancer, but also influence the success of reproduction and therapeutic transplantation of cells, tissues, and organs. He ...
