You can initialize an array in C either one by one or using a single statement as follows – double balance[5] = {1000.0, 2.0, 3.4, 7.0, 50.0}; The number of values between braces { } cannot be larger than the number of elements that we declare for the array between square brackets [].

C - Arrays - Tutorialspoint

Using the CUDA Toolkit you can accelerate your C or C++ applications by updating the computationally intensive portions of your code to run on GPUs. To accelerate your applications, you can call functions from drop-in libraries as well as develop custom applications using languages including C, C++, Fortran and Python. Below you will find some resources to help you get started

GPU Accelerated Computing with C and C++ | NVIDIA Developer
