The evidence presented contradicts the conventional wisdom that Africa's worst-off states are those increasingly marginal to the world economy. Ironically, closer integration of these states into global markets promotes warlord politics, not the bureaucratic forms of administration that most studies of reform in Africa prescribe.

Yet, in Liberia, Sierra Leone, Zaire and Nigeria, less government has contributed not to better government but to warlord politics. Rather than being cut off from changes in the global economy, Africa's weak states have emerged as a new form of authority suited to operating on the margins of that economy.

### **Introduction: Warlord Politics and African States - GSDRC**

African states range from strong to weak, and weak ones can be grouped into those with valuable extractable resources and those without. This innovative study investigates warlord politics in weak states with rich endowments: Liberia, Sierra Leone, and the former Zaire, with Nigeria as a potential candidate. Reno argues that the new post-Cold War environment has forced weak
